THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D. C. 20505

MEMORANDUM FOR: UNITED STATES INTELLIGENCE BOARD
INTELLIGENCE RESOURCES ADVISORY COMMITTEE

SUBJECT : FY-75 KIQ Performance Assessment

1. As you know, the USIB is now reviewing the collection and production strategies that have been prepared for each of the FY-75 KIQs. At the end of the fiscal year and the transition period--i.e., on 1 October 1975--the NIOs, after consulting with representatives of the USIB agencies, will prepare a short narrative report on each FY-75 KIQ assessing the performance of the community on each question with respect to the objectives and tasks set forth in the approved strategy. These reports will include a conclusion as to the degree of KIQ fulfillment and a judgment of the relative contributions to collection and production made by each community member. These narrative reports--together with such data on costs and problems encountered in collection or production performance as are obtainable from NFI program managers--will provide a basis for evaluating IC performance on the FY-75 KIQs.

add sentence
2. These narrative reports will be submitted by the NIOs to the DCI, with copies circulated to all USIB principals. They will have a common structure and will employ a common vocabulary in describing overall fulfillment or fulfillment of such major KIQ elements as the NIO feels appropriate to evaluate separately. This common outline and vocabulary is described in Attachment A.

3. Guidance and instructions for preparing data for the ICS on costs and problems encountered in collection or production are given in Attachments B and C. Attachment B describes the form of the data to be submitted by production components of NFI programs; Attachment C describes the form of the data to be provided by each of the three USIB collection committees--SIGINT, COMIREX and HSC.
